## Stronger Together: The Power of Community in Lindon City

In Lindon City, community is more than a word—it is a way of life. It's the friendly wave from a neighbor, the volunteers who show up without being asked, and the shared pride we feel in the place we call home. When we come together, we create something stronger than any one individual effort: a united community with the power to make lasting, positive change.

Community matters because it connects us. It reminds us that our differences in background, age, or perspective are not barriers, but strengths. When residents listen to one another and work side by side, trust grows. That trust becomes the foundation for safer neighborhoods, stronger families, and a city where everyone feels they belong.

History shows us that meaningful progress happens when people unite around a common cause. Whether it's supporting local businesses, improving parks and public spaces, helping a neighbor in need, or planning for Lindon's future, collective action multiplies our impact. One voice can be powerful—but many voices, working together, can shape the direction of an entire city.

Unity does not require uniformity. It simply asks that we care about one another and about the future we are building together. By showing up, staying engaged, and choosing collaboration over division, we strengthen the fabric of Lindon City.

As we begin a new year, it is a natural time for reflection and resolve. Let us move forward with a renewed commitment to one another—choosing unity, cooperation, and shared purpose as guiding principles for the year ahead. When we stand united in purpose and compassion, there is no limit to what our Lindon community can accomplish.

# Public Works Pointers

## SEWER AND WATER LINE CONNECTIONS

The pipe that carries residential sewage waste from your home to the City's sewer main pipeline in the street is called a residential sewer lateral. Sewer backups are an unfortunate, but common problem in residential sewer laterals due to lack of homeowner maintenance or misuse by allowing the wrong items to enter the sewer lateral.

Lindon City makes every effort to prevent sewer back-ups in the main pipelines owned by the City by scheduling regular pipe cleaning and inspections through the system.

**State Law requires cities to notify homeowners about public vs. private ownership of water and sewer lines. Any necessary repairs to the water line that runs between the home and the water meter are the responsibility of the homeowner and any necessary repairs to the sewer lateral are the responsibility of the homeowner.** These responsibilities may be different for homeowners in an HOA or on private roads. For more information contact the Lindon City Public Works Department at (801) 795-7954. Or you can send questions to <https://lindonrequest.portal.iworq.net/portalhome/lindonrequest>

### PREVENT SEWER LATERAL DAMAGE

- AVOID PUTTING GREASE DOWN YOUR GARBAGE DISPOSAL
- NEVER FLUSH DIAPERS, WIPES (EVEN FLUSHABLE WIPES) OR PAPER TOWELS DOWN YOUR TOILET
- PLANT LARGE BUSHES AND TREES AWAY FROM THE SEWER LATERAL

There are private insurance companies that offer sewer line protection plans that can be purchased to help cover exterior sewer lateral repair or replacement costs. Also, a special rider can be added to your homeowner's or renter's insurance policy to help cover water damage in your home in the event of a backup.

### FAQ:

#### ***Will insurance cover damage to my home or property due to a sewer backup?***

In the majority of cases, a special rider will need to be added to your homeowner's or renter's insurance policy to cover damages related to sewage backups or water damage. This optional coverage is usually not very expensive, but you must usually request that it be added to your policy.

## Storm Water Pollution Prevention: Cleaner Street, Cleaner Water

The City's storm drainage system is designed to efficiently carry rain and snow melt to Utah Lake and away from our streets and homes. Storm drainage inlets are the grates or openings usually located in the street near the curb. **Storm drains are NOT connected to sewage treatment plants**, thus, all storm water, and the litter it carries from the streets, goes straight to our streams, creeks, rivers, and lakes.

### Did you know?

Cigarette butts are not biodegradable. It can take over 15 years to break them down, all the while releasing the toxic chemicals contained in the filters into our waterways.

Litter adds bacteria and nutrients that hurt water quality, damages the environment, and creates unhealthy conditions for animals and humans.

### You can help!

Please keep trash and debris, automobile fluids, leaf litter and organic matter off the street. Remember –

***The drain is just for rain!***
